

THE CANDY  
FOUNDATION

A letter from our Chair, Holly Candy

What a whirlwind the last 20 months has been! Never have we collectively been challenged with the exact same issue country to country, continent to continent across the world. It's been particularly hard for our beneficiaries, and we have a fresh new strategy in place to help support them. We're looking forward to implementing it now that lockdown has been eased!

Combining awareness and fund raising along with all important grant giving, we'll organise events to shine a spotlight on the issues we are passionate about. We will raise funds from an incredible network of like-minded philanthropists, to be matched by our own donations to good causes.

Whilst maintaining our long-term commitment to The Children's Trust and Disability Rights International whose work is absolutely critical, we plan to develop more broad based grant giving to groups that support children facing challenging circumstances. This will help us gain a more comprehensive understanding of the issues vulnerable children face on a daily basis. We're hungry to get to the crux of new challenges and for our giving to be from an educated position so grants go to where they are needed most.

Our vision for the foundation has always been children-led, and it has been a no-brainer to support the work of the work of Disability Rights International and The Children's Trust. Visits and excursions with both have cemented how extremely crucial their work is and how proud we are to be associated with them.

Covid 19 has revealed even more challenges to the most vulnerable children and their day to day lives. We owe it to them to do the very best we can for them!

Faithfully,

Holly Candy
